

*A Word to
Our Visitors*

Welcome to Nevada and may your trip be a pleasant one. To help assure its pleasure may we offer the following suggestions:

While Nevada has no maximum speed regulation on rural highways, it is, however, unlawful to drive at speeds which endanger you or any other individual, and your good judgment must be constantly applied to regulate your speed according to visibility, road conditions, and traffic congestion.

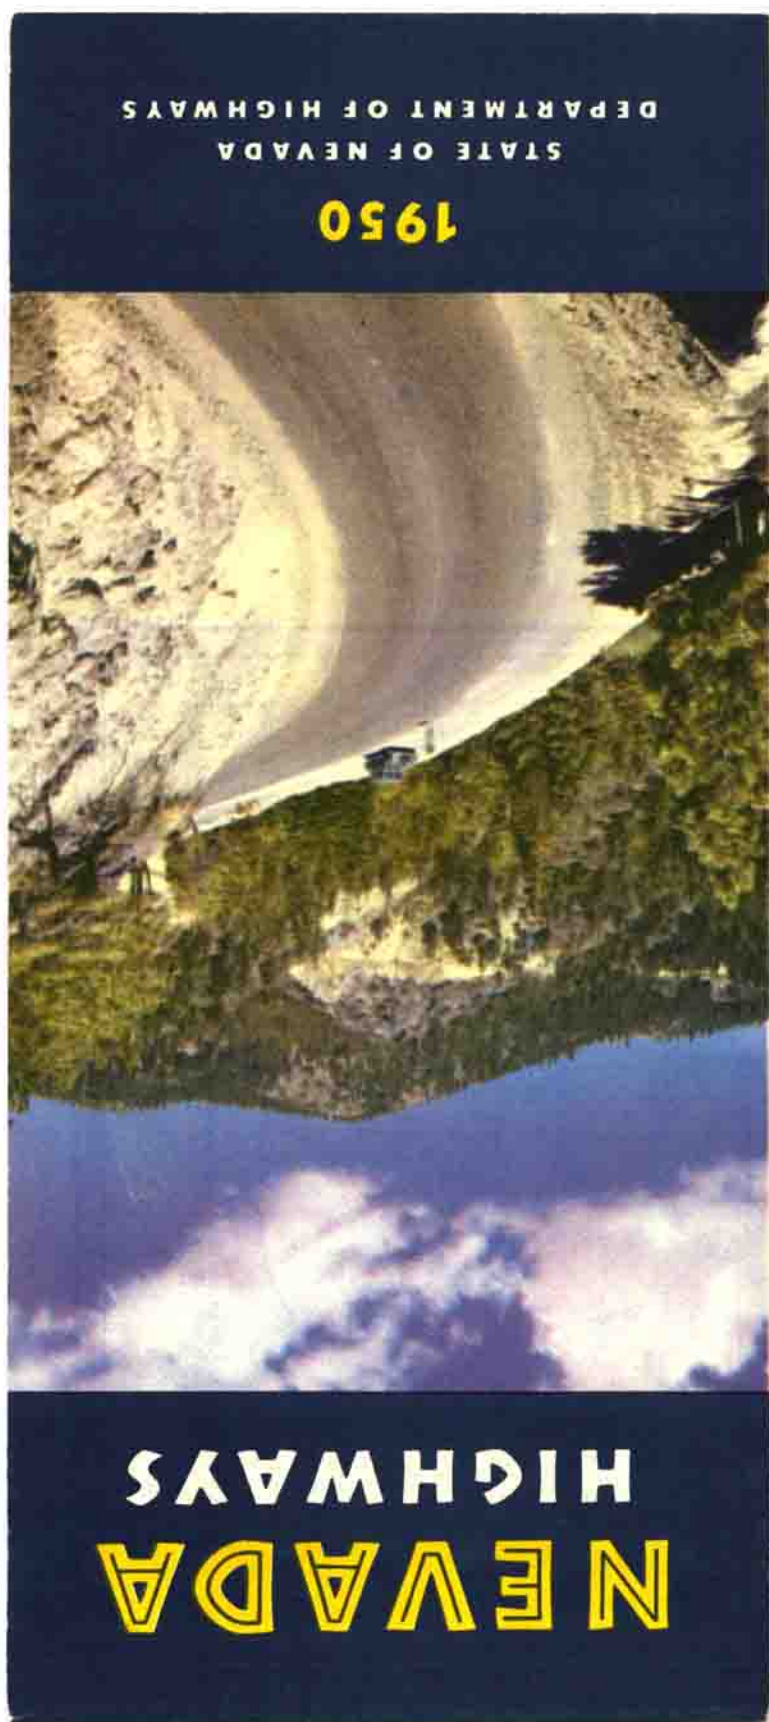

You must reduce your speed through all urban areas regardless of size. Observe the speed signs when approaching even the smallest settlement and obey them. Remember, you have been traveling at a high rate of speed and what you judge to be a greatly reduced rate may be too fast to stop for children or suddenly appearing cross traffic. Let your speedometer be your guide.

Our traffic laws are more or less standard with other states. Watch your hand signals, dim your lights, park off the highway, and above all observe the "No Passing" areas. These are plainly marked and are clearly illustrated on the reverse side of this page.

In unfenced areas watch for cattle and deer on the highways, especially at night.

Beyond venturing on any unpaved road ask locally. Local inquiry improves your safety and your pleasure.

It is unlawful to throw burning matches or cigarettes from your automobile. Many disastrous range fires are started each year from this practice. Our livestock men depend upon the desert forage for a great share of their cattle feed, and we solicit your cooperation in avoiding man-made fires.
